

Wall \$t. Billionaires Out to Destroy LA

The same billionaire bankers and corporate CEOs who wrecked the U.S. economy want LA taxpayers to help them get even richer, while we pay the price. They got together with multi-millionaire Richard Riordan and cooked up a **rotten retirement scheme for city workers** that would:

- Force the city to **invest billions of taxpayer dollars into the stock market casino.**
- Cost city taxpayers **\$100s of millions more** than the current retirement system.
- Enrich the billionaires and millionaires, while pushing **LA toward bankruptcy.**
- Rob **hardworking city trash collectors, librarians, police officers and firefighters** of the future they worked for.

City workers don't get Social Security. None of us can afford to buy into the billionaires' rotten retirement scheme.

Bad for working families. Bad for Los Angeles.

**DON'T SIGN THE BILLIONAIRES'
PETITION.**

**If you already signed, call (877) 721-4968
to remove your name.**
